**GOVERNMENT GETS CHEAP MAIL**

Transporting Large Quantities of Merchandise in Mail Cars.

The traveling public can witness an unusual sight these days at the depot whenever a mail train comes in. Besides the usual snags of mail from 300 to 500 cases of parcels, posts scales from E. and T. Fairbanks and Co.'s factory are being loaded into mail cars daily. These are to fill an order of 5,000 sets of scales for use when the parcels post is inaugurated and the scales are being shipped to all parts of the United States and to Hawaii and the Philippines. This order is the first of several the government must place before the parcels post is in full working order and is making the work at the scale factory very active for the postoffice force here and in addition to this they have had to weigh all the mail passing through the office for the past 105 days. This work was completed last night and the force can now give their attention to the scales and Christmas mail.
